

BENEFITS OF SYNERGY CRYSTAL UV

UV PROTECTION UV protection is important for all patients; Synergy Crystal UV protects patient eyes from the dangers of UV exposure with an E-SPF of 25.

ANTI-REFLECTIVE

With less glare, you see clearer, especially at night. This leads to less eye fatigue and safer driving.

SUPER HYDROPHOBIC

Synergy Crystal UV has a contact Angle of 112 degrees, making lenses easy to clean.

SCRATCH RESISTANT

No scratches means better vision. Backed by a 2 year warranty.
